

EROAD ELECTRONIC IFTA

Recordkeeping without the chase

At EROAD, we've revolutionized the IFTA (International Fuel Tax Agreement) recordkeeping experience – eliminating the need to chase down driver records, sift through paperwork, and manually enter information. With EROAD's in-vehicle device, you'll be confident your entire fleet's data is accurately captured and securely transmitted. EROAD's rapid ping rate, powerful mapping engine, and sophisticated geofence tool are unmatched in the industry, allowing you to recreate every mile of every driver's journey to support accurate, reliable, and auditable distance recordkeeping for tax purposes. With EROAD's Fuel Management you'll easily capture and store the detailed fuel receipt information needed for at least four years to meet recordkeeping requirements.

Accurate data at your fingertips

EROAD's Electronic IFTA automatically generates the required trip information including accurate distance, location, and state line crossing information to support IFTA distance record requirements.

There's no need to rely on your drivers' manual data. Information from the daily trip sheet is automatically transmitted to EROAD's secure web-based application, called Depot, and is ready to access at any time. Easily view distance traveled, locations, routes, and operational data.

KEY BENEFITS

Save time Dramatically reduces administration time and paperwork

Feel confident Measures and records mileage, state line crossing, and route data with pinpoint accuracy

Stay compliant Helps safeguard against audit assessments

Pay only what you owe Automatic Exempt Miles determination to avoid overpayment

Harness your data Manages Fuel Trip Records, fuel receipts summaries, and quarterly IFTA return data

The screenshot shows the EROAD IFTA software interface. At the top, there are navigation tabs for 'ACTIVITY', 'TAX', 'DRIVER', and 'REPORTS'. Below these, there are sub-tabs for 'IFTA', 'Weight Mileage', 'RUAF Mileage', and 'IRP'. The main content area displays a summary for 'Q4, Oct-Dec 2016' with an IFTA license of 'OR-789'. A prominent button labeled 'Generate IFTA Return' with a download icon is highlighted by a circular callout with a hand cursor. Below this, there are two data tables. The first table shows mileage data, and the second table shows fuel and tax data by jurisdiction.

	IFTA Miles	Non-IFTA Miles	Total Miles	Total Gallons
Diesel	29,123	44	29,167	1,177
Total	29,123	44	29,167	

Jurisdiction	Fuel Type	Total Miles	Taxable Gallons	Tax Paid Gallons	Net Taxable Gallons	
OR	Diesel	249	126	120	60	
WA	Diesel	16,604	605	545	60	
ID	Diesel	9,337	9,291	339	202	137
CA	Diesel	2,977	2,977	108	24	84

KEY FEATURES

- › **Electronic Recordkeeping** IFTA Fuel Trip Records display mileage and exempt trip details per vehicle per month as well as any fuel fills entered and available in Fuel Management. The IFTA Fleet Summary provides all of the needed summaries by jurisdiction and vehicle (monthly, quarterly, and yearly) for audit purposes. All IFTA supporting records and data are retained and stored for at least four years.
- › **Fuel Management** Fuel receipts can be entered directly through EROAD's in-vehicle hardware by drivers or by uploading fuel data into Depot.
- › **Advanced Reporting** Automatically combines the mileage and fuel information into a format facilitating your IFTA return, identifies exempt miles, and calculates your fleet's average MPG on a quarterly basis.
- › **Fuel Exception Report** Identifies location, consumption, and fuel type exceptions across your fleet for the selected reporting period from the fuel receipts available in the Fuel Management to improve the integrity of your fuel records.
- › **IFTA Easy File** Generate a file that can be used as your IFTA return with a click of a button. IFTA Easy File provides an export file in the correct file format which can be uploaded as the quarterly IFTA return through your base jurisdiction's online web system, where available.
- › **Exempt Miles** EROAD's powerful mapping engine automatically and accurately determines taxable and exempt miles according to each jurisdiction's individual requirements. Exempt mile reports are available to support recordkeeping and audit requirements.
- › **IFTA License and Vehicle Management** Set up and manage multiple IFTA licenses to easily keep track of the jurisdictions you must report to. Keep your vehicles organized by assigning them to the appropriate IFTA license for filing purposes.

One end-to-end solution

EROAD truly delivers a best-in-class, advanced fleet reporting solution on a single platform using in-house expertise to build the best electronic fleet solution available on the market.

EROAD puts everything at your fingertips, saving you time and effort at every turn. You can rely on EROAD's powerful set of tools to take control of your tax, compliance, and operational performance – including an FMCSA-compliant ELD, creating a safer work environment for your drivers, and making it easier and faster to accurately track, manage, and share hours of service.

EROAD. Confidence in every mile.
