

# EROAD SERVICE AND VEHICLE MAINTENANCE

EROAD Service and Vehicle Maintenance simplifies maintenance with automated service scheduling based on time lapsed, distance traveled or engine hours, plus a full service history archive.

### Maintain a healthy fleet

Accountability and transparency around your vehicle maintenance is an essential part of operating a successful operation. Vehicle defects can cause delay from breakdowns or be placed out-of-service from failing a roadside inspection.

Maintenance and repairs are also a significant component of your business expenses. Scheduling periodic and systematic vehicle inspections helps to keep on top of the health of your fleet and avoid unexpected repair bills.

EROAD's comprehensive Service and Vehicle Maintenance allows you to proactively manage the maintenance and repair of your vehicle fleet.

### KEY BENEFITS

**Reduce repair costs** Stay on top of vehicle maintenance with automated service scheduling, avoiding the need for unforeseen repairs

**Eliminate downtime** Keep your vehicles on the road by reducing the risk of breakdowns and associated drop in productivity

**Improve safety** A well-maintained fleet helps you meet safety compliance and minimize risk

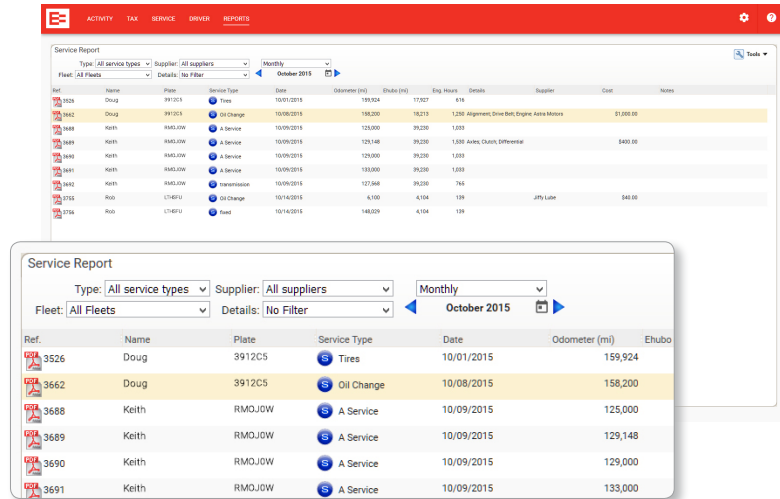

The screenshot displays the EROAD software interface. On the left, a 'Service Vehicles' list shows various vehicles with their names, plates, and next service items. The vehicle 'Rob' (Plate: AUUYU9) is highlighted. On the right, a detailed view for 'Rob' shows a table of scheduled service items.
