EROAD Heavy Vehicle Plans

Drive your fleet's success and take control of compliance, safety and fleet performance.

All plans include the EROAD Ehubo, a secure, durable, and easy-to-use in-cab device, and access to Depot, EROAD's secure cloud-based management portal.

The Ehubo has a reputation for being one of the easiest in-cab devices for drivers to learn, ensuring proper recordkeeping, enhanced safety insights and better fleet performance. Installation is fast and training takes mere minutes for the driver to get comfortable using it.

Analyzing driver performance, collecting data for taxes, and tracking the daily movement of your fleet is easily managed through Depot. Configurable to best meet your company's needs, Depot brings you powerful tools and reporting for your ELD, DVIR, fleet management, fleet health, driver management, fuel tax management and IRP reporting needs.
