

A cleaner, simpler Replay experience

Making events easier to review and manage

THE OPPORTUNITY

When reviewing dashcam events, teams need a clear view of the information that matters and simple ways to take action.

WHAT'S NEW

We've tidied up the event view, reducing headline tags to focus on the main behaviour only, and streamlined key information in event details.

WHY IT MATTERS

> Review dashcam events with less clutter and fewer distractions
Available now in Replay. No action required.
