

EROAD Inspect

EROAD Inspect, our paperless driver vehicle inspection report (DVIR), gives you complete confidence your fleet is FMCSA compliant. With this in-vehicle, real-time reporting and communications solution, you'll identify vehicle issues sooner, improve turnaround time on repairs and operate safer vehicles.

One easy solution for ELD and DVIR

The best choice for ELD compliance also streamlines your defect reporting and repairs. With EROAD's in-vehicle ELD you'll easily capture your drivers' hours of service and streamline your defect resolutions.

EROAD Inspect leads the driver through a simple and methodical inspection process. Drivers can report defects as well as certify their repairs, greatly streamlining pre-trip and post-trip inspections.

For safety or service managers EROAD Inspect interfaces with our web application Depot, providing real-time visibility of defects. The Defect Board within Depot offers drag-and-drop capabilities making it easy to prioritize and show what has been repaired for faster turnaround time on repairs and safer vehicles. As defects move from reported to repaired, EROAD Inspect ensures you're compliant with a three-signature electronic verification.

And the best part is you have an all-in-one solution, backed by EROAD's team of experts.

KEY BENEFITS

Driver friendly

Guides drivers through inspections and allows them to focus on one item at a time

One device, multiple applications

Captures hours of service and defects – all with one easy-to-use in-vehicle device

Absolute transparency

Know exactly what defects exist in your fleet and their current repair status

Eliminates paperwork

Streamlines maintenance tracking and reporting

Improved visibility

Engages drivers in the repair process with real-time visibility into repair status

Safety first

Reinforces a safety-first environment

Intuitive in-vehicle touchscreen allows drivers to report as well as certify vehicle defects are repaired

KEY FEATURES

- › **Driver-friendly** Intuitive in-vehicle touchscreen leads drivers through a series of simple prompts to record defects
- › **FMCSA compliant** Electronic three-signature compliance ensures clear communication between driver, workshop and office as issues are reported, repaired and certified
- › **Identifies vehicles in danger of violating regulations or in need of maintenance** Service teams are notified of defects, log repairs and communicate with the driver upon completion through EROAD's on-line Defect Board
- › **Reports at your fingertips make audits easier** Reports for truck, trailer and other equipment are in one place, providing information on who reported the defect, who certified it, was it repaired and who verified the repair; separate inspection reports give you a complete DVIR history for each asset
- › **Includes hardware, software and data** Giving you confidence you have the most accurate and reliable information backed by world class customer support

Service teams are notified of defects, log repairs and communicate with the driver upon completion

One end-to-end solution

EROAD puts everything at your fingertips, saving you time and effort at every turn. You can rely on EROAD's powerful set of tools to take control of your tax, compliance, and operational performance – including an FMCSA registered and third-party verified ELD, creating a safer work environment for your drivers, and making it easier and faster to accurately track, manage, and share hours of service.

EROAD. Confidence in every mile.
