

# EROAD LEADERBOARD

EROAD Leaderboard allows you to benchmark drivers within your organization against industry benchmarks, ranking them on key driver metrics. You can use the insights provided by Leaderboard to support driver training and reward programs, helping your organization improve driver retention and meet your duty of care obligations.

#### **Reward great driving**

Knowing that you've got a great team of professional drivers representing your business can take a huge load off your shoulders. Changing on-road driving behavior takes time. The great news is that it is highly achievable.

EROAD has found that the key to improved driver behavior is consistent attention to and monitoring of driving behavior analytics.

Our Leaderboard provides you with an inside view of your fleet based on key driver metrics, enabling you to set up effective driver training and reward programs.

The driver ranking shows how your drivers compare within your organization and tracks how they perform over time. The star rating compares your drivers against industry driver benchmarks.

Encourage better, safer driving and maintain or improve your CSA score.
