

VIRTUAL SPEED CAMERA

EROAD's Virtual Speed Camera helps to keep the public and your drivers safe by enabling you to set custom speed limits around high risk locations. Geofence key areas of risk such as your yard or local schools and receive notifications in real time if one of your drivers exceeds a speed limit you've set. Protect your safety record, reputation, and bottom line.

Focus on safety

An easy way to improve driver awareness of speed and reduce the risk of speeding events is to pinpoint key risk areas for your fleet.

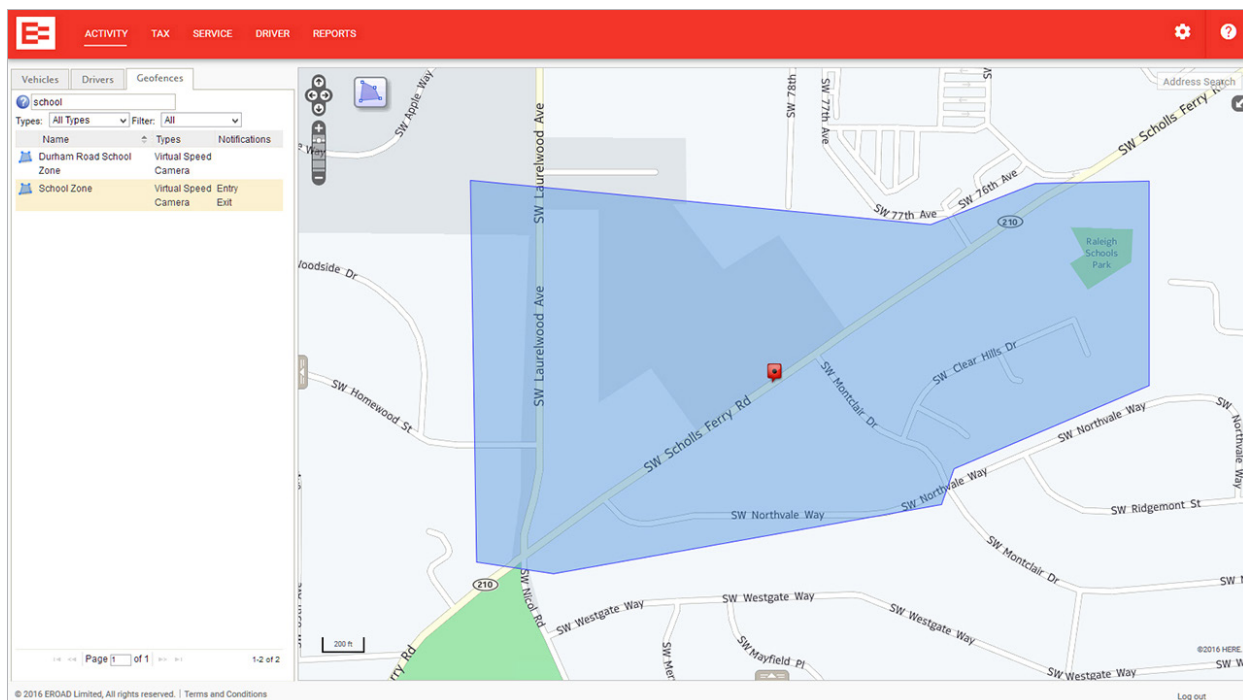

EROAD has developed a powerful tool that allows you to create geofences around areas of risk and set your own safe operating speed for your fleet. With our Virtual Speed Camera, you can encourage extra care around risk areas such as customer sites, loading zones, highway sections with bad roadway geometry, and school areas. If one of your vehicles exceeds the limit you've set within that area, you receive a real-time notification and can address it with the driver in a timely fashion.

KEY BENEFITS

Improve visibility Monitor vehicle speeding in high risk locations such as school areas, ports or company yards, where reducing speed is necessary to ensure the safety of the public, your staff and customers

Provide timely feedback Notifications ensure the fleet manager is aware immediately when speed is exceeded – and can deliver timely feedback to the driver

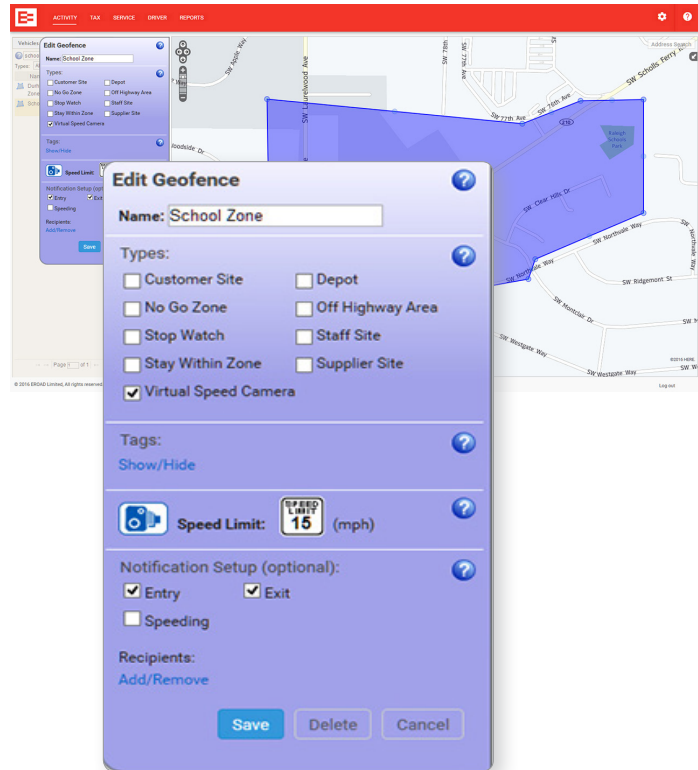

Support driver training EROAD Over Speed Dashboard includes Virtual Speed Camera events, enabling you to monitor speeding for use in safety meetings or during driver coaching and training

EROAD VIRTUAL SPEED CAMERA_1.0

KEY FEATURES

- › Create a Virtual Speed Camera by setting customized speed limits on sites of interest using our smart geofence capability
- › Email notifications delivered in real time when vehicle exceeds the custom set speed limit
- › Virtual Speed Camera events are reported in the Over Speed Dashboard for ongoing monitoring and visibility of events
- › View high risk locations to support driver coaching with the Driver Insight Report that captures drivers exceeding the Virtual Speed Camera limit

One end-to-end solution

EROAD truly delivers a best-in-class, advanced fleet reporting solution on a single platform using in-house expertise to build the best electronic fleet solution available on the market.

EROAD puts everything at your fingertips, saving you time and effort at every turn. You can rely on EROAD's powerful set of tools to take control of your tax, compliance, and operational performance – including an FMCSA-compliant ELD, creating a safer work environment for your drivers, and making it easier and faster to accurately track, manage, and share hours of service.

EROAD. Confidence in every mile.
