

# EROAD SHARE

EROAD Share makes it easy to share vehicle and fleet information securely and easily with businesses in your supply chain, improving safety compliance and productivity.

### Work smarter together

When you work with contractors or other businesses in your supply chain, you don't always have the same visibility of their fleets as you have of your own. This can affect productivity and your ability to ensure the safety of all drivers working for you.

EROAD Share lets you share information easily, effectively and securely. It simplifies safety and compliance by showing you not only the location of vehicles, but also how they are being driven. You control which vehicles are shared, for what period, and the driver behavior reports they appear in.

Your business and those you work with can coordinate resources, and simplify dispatch and job management. Sharing of data and improved visibility of your operations helps you deliver high-quality service to your customers.

Visibility of your sub-contractors' vehicles means you can ensure the same high standards you expect from your own drivers, and better meet your duty of care obligations.

### KEY BENEFITS

**Minimize risk** Complete display of own and shared vehicle information on the same digital map helps minimize workplace risk

**Improve despatch** Share live and historical daily activity history for your vehicle fleets to better manage despatch and provide proof of job completion

**Coordinate resources** Sub-contractor and contractor vehicles can be ranked against each other to improve fleet management

**Ensure safety** Enable monitoring of driving behavior by including shared vehicle data in Over Speed Dashboard, Leaderboard and Driver Insight reports

**Simplify job management** Move shared vehicles into your own fleet for enhanced job management.

## EROAD SHARE

### KEY FEATURES

- › Complete display of own and shared vehicle information on the same digital map helps minimize workplace risk
- › Share live and historical daily activity history for your vehicle fleets to better manage despatch and provide proof of job completion
- › Sub-contractor and contractor vehicles can be ranked against each other to improve fleet management
- › Enable monitoring of driving behavior by including shared vehicle data in Over Speed Dashboard, Leaderboard and Driver Insight reports
- › Move shared vehicles into your own fleet for enhanced job management
- › Third party data can be shared through the partner gateway share including reefer temperature data or job status

### One end-to-end solution

EROAD truly delivers a best-in-class, advanced fleet reporting solution on a single platform using in-house expertise to build the best electronic fleet solution available on the market.

EROAD puts everything at your fingertips, saving you time and effort at every turn. You can rely on EROAD's powerful set of tools to take control of your tax, compliance, and operational performance – including an FMCSA-compliant ELD, creating a safer work environment for your drivers, and making it easier and faster to accurately track, manage, and share hours of service.
