

EROAD FUEL MANAGEMENT

EROAD Fuel Management helps you reduce fuel costs through a better understanding of fuel efficiency across your vehicle fleet. Compare vehicle performance based on fuel use, speeding events and distance traveled. It supports IFTA fuel tax reporting and recordkeeping obligations in an easy and effective way.

Drive down fuel costs

Fuel is one of your largest operating expenses. Improved fuel efficiency across your fleet accumulated over time will generate huge savings for your business.

EROAD's intuitive and powerful fuel management module helps you to manage your fuel transactions, identify trends and understand fuel consumption and performance across your fleet. The module supports fuel tax compliance and assists you to meet your recordkeeping obligations.

Customers who use a Comdata MasterCard Corporate Fleet Card for fuel purchases are able to establish an automated import of Comdata fuel card transactions to the EROAD web application, Depot.

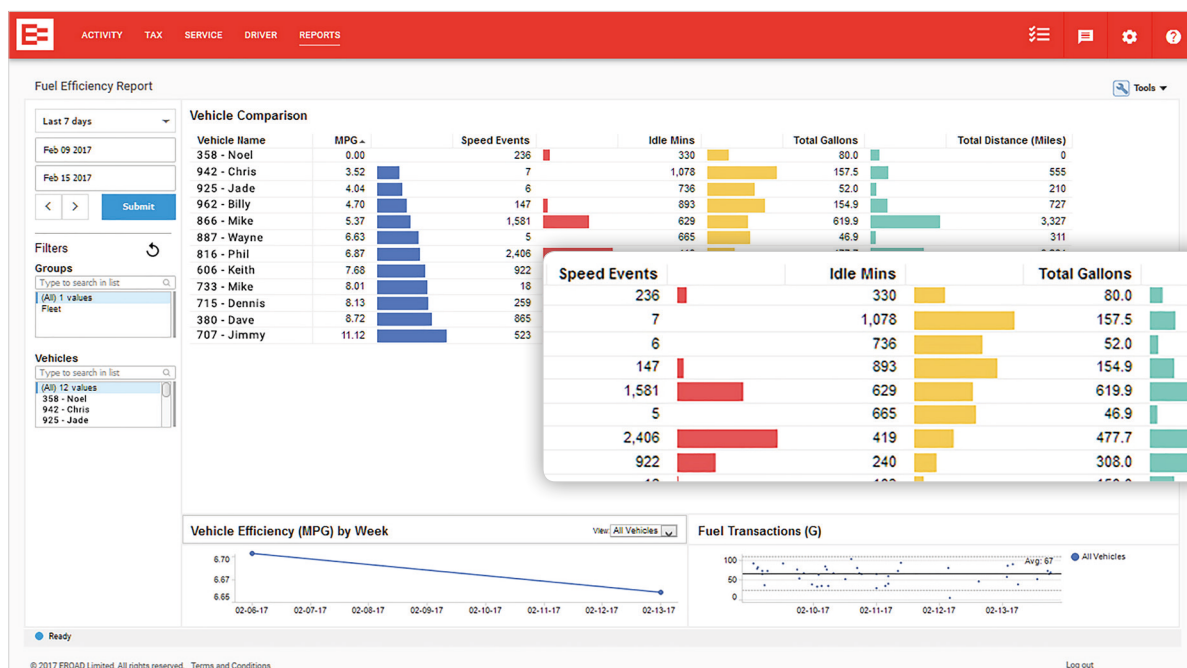

You can export your fuel data in common formats. EROAD fuel reports allow you to identify trends and understand fuel consumption across your fleet.

KEY BENEFITS

Save on fuel With real-time fuel usage and transaction information, you always know what you have and how it's used. EROAD reports also support IFTA fuel tax reporting to meet your recordkeeping obligations.

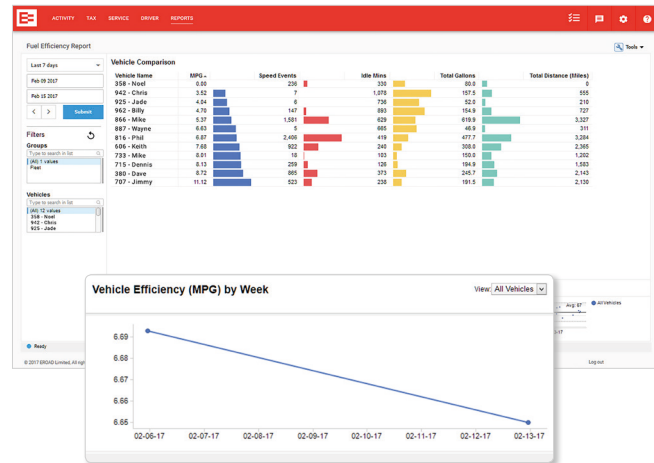

Better visibility See at a glance your fuel consumption and performance across your fleet. Fuel exception reporting allows you to ensure each fuel dollar is spent productively

Track performance The ability to track idle time, distance traveled and mileage per gallon for your fleet can help reduce fuel consumption and improve vehicle performance
