

OFF HIGHWAY FUEL USAGE REPORT

Accuracy matters. Accuracy counts

With the EROAD Off Highway Fuel Usage Report you'll have the detail and information you need to take full advantage of available refunds for fuel consumed while traveling off highway.

This highly flexible report uses the mileage information captured by EROAD's in-vehicle device to recreate every mile of every driver's journey. You'll have accurate, reliable, and auditable distance recordkeeping for recording and calculating off highway fuel consumed.

Everything you need at your fingertips

There's no need to rely on your drivers' manual data to determine the number of miles your fleet's travelled off highway. Everything you need to know is automatically transmitted to EROAD's secure web-based application, called Depot. Easily view the on and off highway distance traveled by vehicle, locations, routes, and operational data for a selected timeframe.

KEY BENEFITS

Maximize ROI Take full advantage of refund claims for fuel consumed off highway

Save time Dramatically reduce time, effort, and paperwork

Feel confident Measure and record on and off highway travel with high degree of accuracy

Stay compliant Report and supporting details provide level of detail adequate for recordkeeping and audit purposes

Reduce Complexity Quickly apply filters to reduce the complexity for completing available refund claims for off highway fuel usage

Harness your data Manage Off Highway travel with individual vehicle Off Highway Trip Details

The screenshot shows the EROAD web application interface for the 'Off Highway Fuel Usage Report'. At the top, there is a navigation bar with 'ACTIVITY', 'TAX', 'SERVICE', 'DRIVER', and 'REPORTS'. Below this, the report title 'Off Highway Fuel Usage Report' is displayed. A filter overlay is active, showing three dropdown menus: 'Vehicles' set to 'All Vehicles', 'Jurisdiction' set to 'All Jurisdictions', and 'Off Highway Areas' set to 'All Off Highway Areas'. The main data table has columns for 'Average Vehicle mi/gal' and 'Off Highway Fuel Used (gal)'. The table is grouped by jurisdiction, with 'California (CA)' and 'Nevada (NV)' sections. Each section lists individual vehicles with their license plate numbers, fuel types, and associated mileage and fuel usage data.

Vehicle	Fuel Type	Mileage	Off Highway Mileage	Off Highway Fuel Used (gal)	Average Vehicle mi/gal	Off Highway Fuel Used (gal)
13U4WQ	Diesel	1,655	85	1,570	5.19	21
1PQMNO	Diesel	394	284	110	21.86	72
2QWMSS	Diesel	391	281	110	2.60	42
2YXKSO	Diesel	394	284	110	2.58	43

OFF HIGHWAY FUEL USAGE REPORT

KEY FEATURES

› Off Highway Trip Details

Automatically generates the supporting records and details needed for recordkeeping and audit purposes to file available refund claims for fuel consumed off highway, including the vehicle, distance, location, fuel type, road type category, exemption type, and time of the off highway trip

› Advanced Reporting

Automatically combines the mileage and fuel information into an intuitive and easy to read format where the jurisdiction and vehicle MPG's are calculated along with a summary of the off highway data, such as fuel type, on and off highway distance, average MPG, and off highway fuel consumed

› Fuel Transaction Management

Fuel transactions can be entered directly through EROAD's in-vehicle hardware or by uploading fuel data. The fuel details can be managed and accessed in Depot using Fuel Transaction Management. The Off Highway Fuel Usage Report uses this information to calculate the vehicle's average MPG

› Geofence Tool

Create and designate geofences as off highway and assign them a road type category

› Easy Export

All of the various views provided by the Off Highway Fuel Usage Report can be exported and downloaded to your computer for further analysis to maximize your ROI for fuel consumed off highway

› Quick Filters

Accelerate the refund claim process and reduce the paperwork required to fill out and file with the applicable jurisdictions to meet their individual filing requirements

One end-to-end solution

EROAD truly delivers a best-in-class, advanced fleet reporting solution on a single platform using in-house expertise to build the best electronic fleet solution available on the market.

EROAD puts everything at your fingertips, saving you time and effort at every turn. You can rely on EROAD's powerful set of tools to take control of your tax, compliance, and operational performance – including an FMCSA-compliant ELD, creating a safer work environment for your drivers, and making it easier and faster to accurately track, manage, and share hours of service.

EROAD. Confidence in every mile.
