## MEDIA RELEASE

### Caltrans selects EROAD as technology provider to California Road Charge Pilot

**March 15, 2016 Tualatin, OR** California Department of Transportation has selected EROAD Inc. as its heavy vehicle technology provider for the California Road Charge Pilot.

The country's largest road charge pilot to date is scheduled to run for nine months from this July, in order to investigate road charging options for possible replacement of California's fuel tax. EROAD is the sole provider in the heavy vehicle category.

EROAD brings its expertise to bear having successfully developed and deployed its weight-mile tax solution in Oregon and electronic road user charging in New Zealand. EROAD strives to make tax and driver safety compliance easier for motor carriers utilizing its full suite of compliance solutions.

Heavy vehicle participants in the California Road Charge Pilot can take advantage of the full range of EROAD services including electronic IFTA, electronic logbook, Oregon WMT, driver feedback, idle reporting, vehicle maintenance reporting and more for no cost.
