

EROAD ASSET TRACKER FOR TRAILERS

A single powerful dashboard to manage all your tractors and trailers

EROAD makes it easy to manage your entire fleet with the EROAD ELD and fleet management solution combined with asset tracking.

Gain visibility into the location and usage of your trailers and equipment with EROAD Asset Tracker.

Get your fleet on track with EROAD Asset Tracker

- Trailer tracking
- Equipment tracking
- Yard check automation
- Site-specific activity
- Maintenance scheduling
- Utilization reporting

KEY BENEFITS

Location tracking Whether en route, in the yard or in detention, you'll always know where your trailers are and have reports that prove it.

Maintenance scheduling Use miles traveled for trailers and engine hours for other assets to schedule preventative maintenance, improve performance and longevity.

Proof of service Use geofences, time on location and notifications of arrival and departure to provide accurate arrival/departure records

Accurate and available Multi-provider SIM provides highly accurate 4G LTE coverage.

Ruggedly reliable A rugged, precise and reliable package, ETrack Wired is ready for use on trailers and other pieces of equipment
