

EROAD

EROAD Clarity Dashcam

Get a clearer picture with integrated video and fleet data

Add EROAD Clarity Dashcam to your fleet technology arsenal and get a clearer picture of incidents on the road and drivers' activities behind the wheel.

Combining full HD video with EROAD's accurate ELD and driver behavior data, you'll have powerful tools to help reduce insurance costs, identify fault in case of accidents, protect your fleet and drivers from wrongful lawsuits, and coach drivers to improve safety.

ALL IN ONE PORTAL

Fully integrated with your EROAD fleet management system

EASY AND RELIABLE INVESTIGATIONS

Connect video clips to event logs, ELD and vehicle maintenance schedule

HIGH IMPACT DRIVER COACHING

Gather driver notes, behavior reports, and video clips

BUILT TO LAST

Purpose-built for the extreme temperatures your trucks operate in

REDUCE DRIVER ERROR

Safety events automatically trigger video clips to upload for your review

ALWAYS ON WHEN TRUCK IS ON

Continues recording even when you are out of coverage

KEY FEATURES

EROAD CLARITY DASHCAM

- Fully integrated with your EROAD fleet management system – all in one web portal
- Tamper-resistant and built to last in extreme conditions and temperatures
- Compact, rugged device will not impede the driver's field of vision
- Camera starts automatically with ignition
- Records continuously, even when out of coverage
- Fast, automatic upload of 20 second clips are sent in three ways to the cloud: automatically, upon detection of critical events (harsh braking, sharp cornering, sharp acceleration), manually, when the driver presses a button, or by request through the Replay interface.

MYEROAD REPLAY

- Easy, reliable way to access video for exoneration, reducing risk and driver coaching
- Video clips are rapidly uploaded to EROAD web portal when camera is in coverage
- Quick click from video clips to event log, and vehicle maintenance schedule to speed up incident investigations
- Gather driver notes, behavior reports, and video clips to enable high impact driver coaching and rewards
- Easily retrieve footage post-incident
- Tag video clips as “to be coached”, “to review”, “coached”, and “reviewed” to streamline your driver coaching workflow
- Video clips can be easily shared within your organization, and with third parties, such as your insurer, as needed for incident resolution

EROAD CLARITY DASHCAM SPECIFICATIONS

- ✓ Front or front and driver facing dashcam
