

A BETTER WAY TO MANAGE YOUR FLEET

TURN COMPLEX FLEET DATA INTO ACTIONABLE INSIGHTS TO TRANSFORM YOUR OPERATIONS.

Visibility is key to running a safe, efficient, and profitable fleet.

An integrated telematics solution that contextualizes vast and diverse data in a single platform empowers you with the information you need - when you need it - to make intelligent fleet management decisions for success in the moment and long term.

A recent survey of 1,200 U.S. fleet managers, executives, and other mobile-business professionals found:

Return on Investment

- 45% achieved positive ROI in 11 months or less.
- 22% reported positive ROI in less than three months.
- Only 23% of fleets surveyed use big data analytics and just 15% plan to have it in the future.
- 42% of those currently using a fleet tracking solution consider it "extremely" beneficial.

Safety & Cost Saving

Across various industries, GPS fleet management helped lower:

- Accident costs by 16-30%
- Fuel costs by 7-20%
- Labor costs by 9-25% in 2018

Go beyond the basics with EROAD to gain a competitive edge.

Boost safety, and reduce maintenance and fuel costs

Unlock fleet-wide performance insights

Increase productivity and efficiency

Ensure compliance and streamline tax reporting

EROAD provides a better way to manage your fleet and outmaneuver your competition.
