

# Got Questions? We Got Answers

From setup to sustainability, these FAQs cover how EROAD helps you get more out of your fleet.

## 1 Q: What types of fleets is EROAD built for?

From general freight to cold chain, EROAD supports fleets of all sizes with intelligent tools that scale as you grow.

## 5 Q: What insights can I expect from the platform?

Our dashboards provide a clear view of vehicle health, fuel use, and driver behavior — so you can act fast and stay in control.

## 2 Q: What makes EROAD's dashcams different?

Unlike traditional dashcams, our Clarity Edge AI dashcam can spot risky behaviors as they happen, provide instant driver feedback, and automatically detect and document incidents — turning each trip into an opportunity for safer, smarter driving.

## 6 Q: What's the setup process like?

Quick and guided. We offer professional install, training, and full support to get you up and running.

## 3 Q: How does EROAD help with compliance?

Automated HOS, ELDs, DVIRs, IFTA, and more — EROAD simplifies compliance with real-time data capture.

## 7 Q: Is EROAD's platform customizable?

Yes — tailor reports, alerts, and dashboards to focus on what matters most to your fleet.

## 4 Q: Can EROAD help with sustainability goals?

Yes. Our platform uses AI to reduce fuel waste, lower emissions, and improve route efficiency.

## 8 Q: How does EROAD use AI across the platform?

Our systems support everything from driver coaching and maintenance scheduling to route planning and real-time alerts — boosting efficiency at every level.
