

EROAD

The Power of One Platform to Keep Fleets Safe, Compliant, and Cold Chain-Ready

From driver safety to temperature integrity, EROAD connects every part of your operation in one powerful, data-driven platform.

Clarity Edge AI Dashcam

Real-time alerts and video clarity that help fleets resolve incidents faster and with confidence.

CoreHub

Transform complex vehicle data into measurable results that improve performance and profitability.

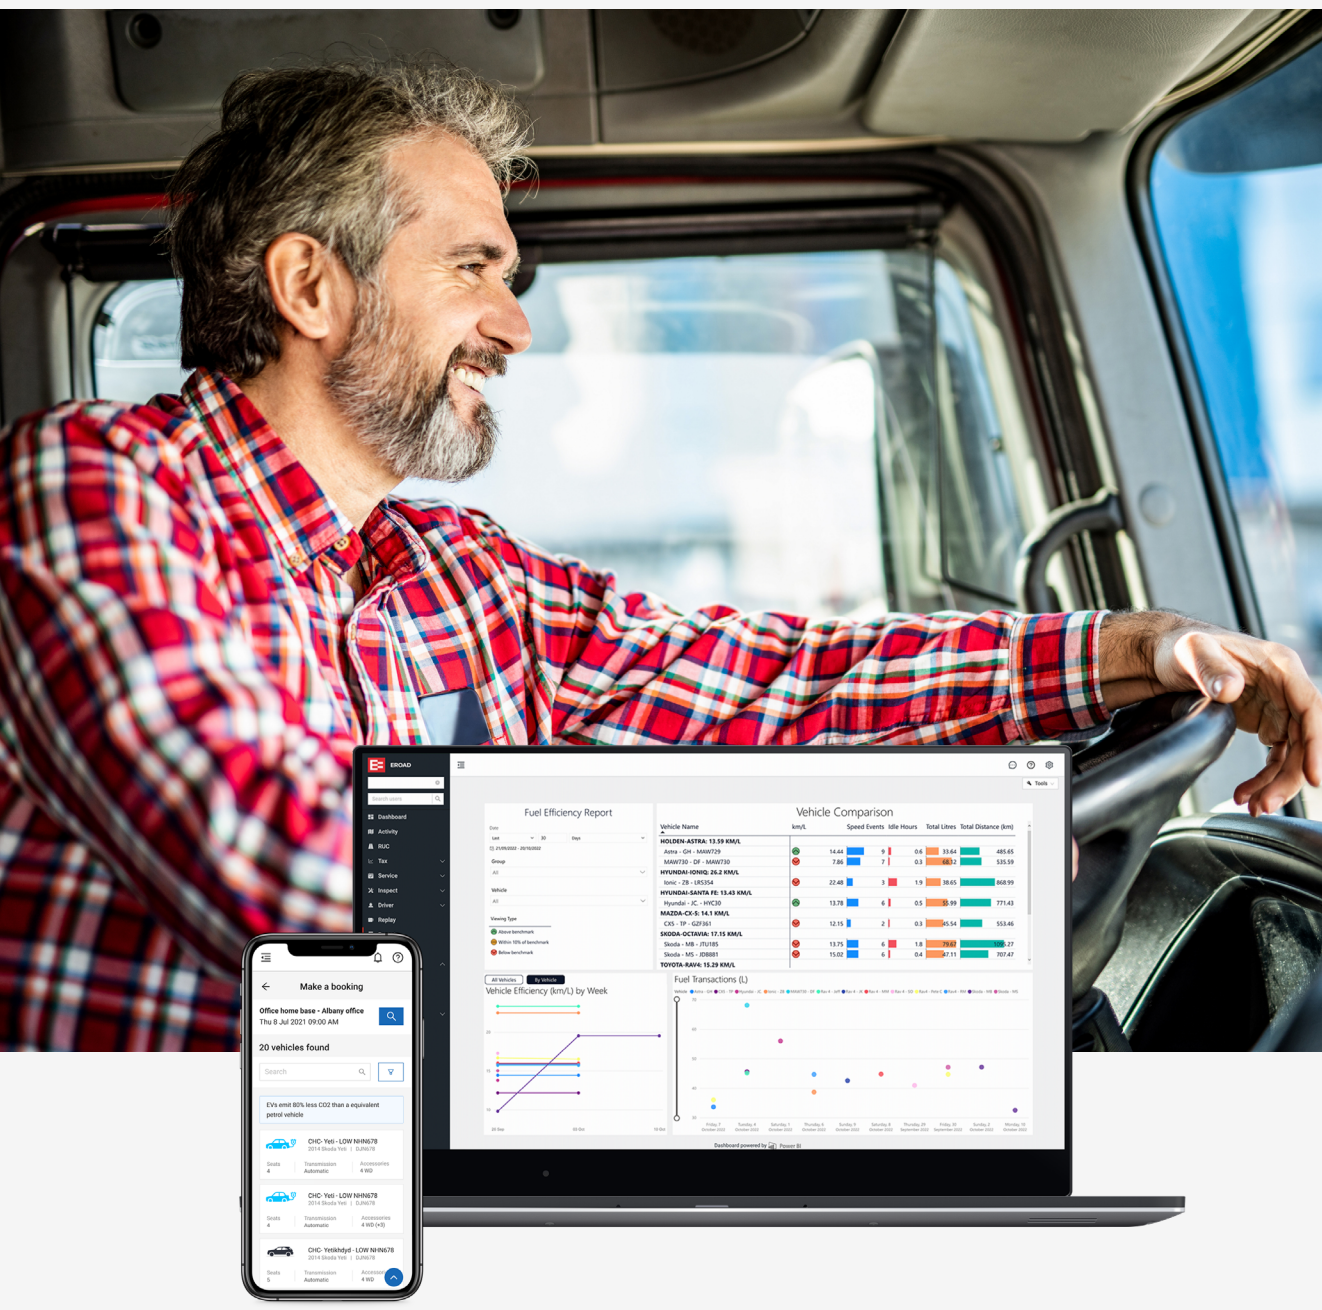

CoreHub Xtreme

Gain deeper risk insights to strengthen cold chain protection and performance.

Tailored to your industry

From perishables to general freight, EROAD adapts to the needs of your fleet.

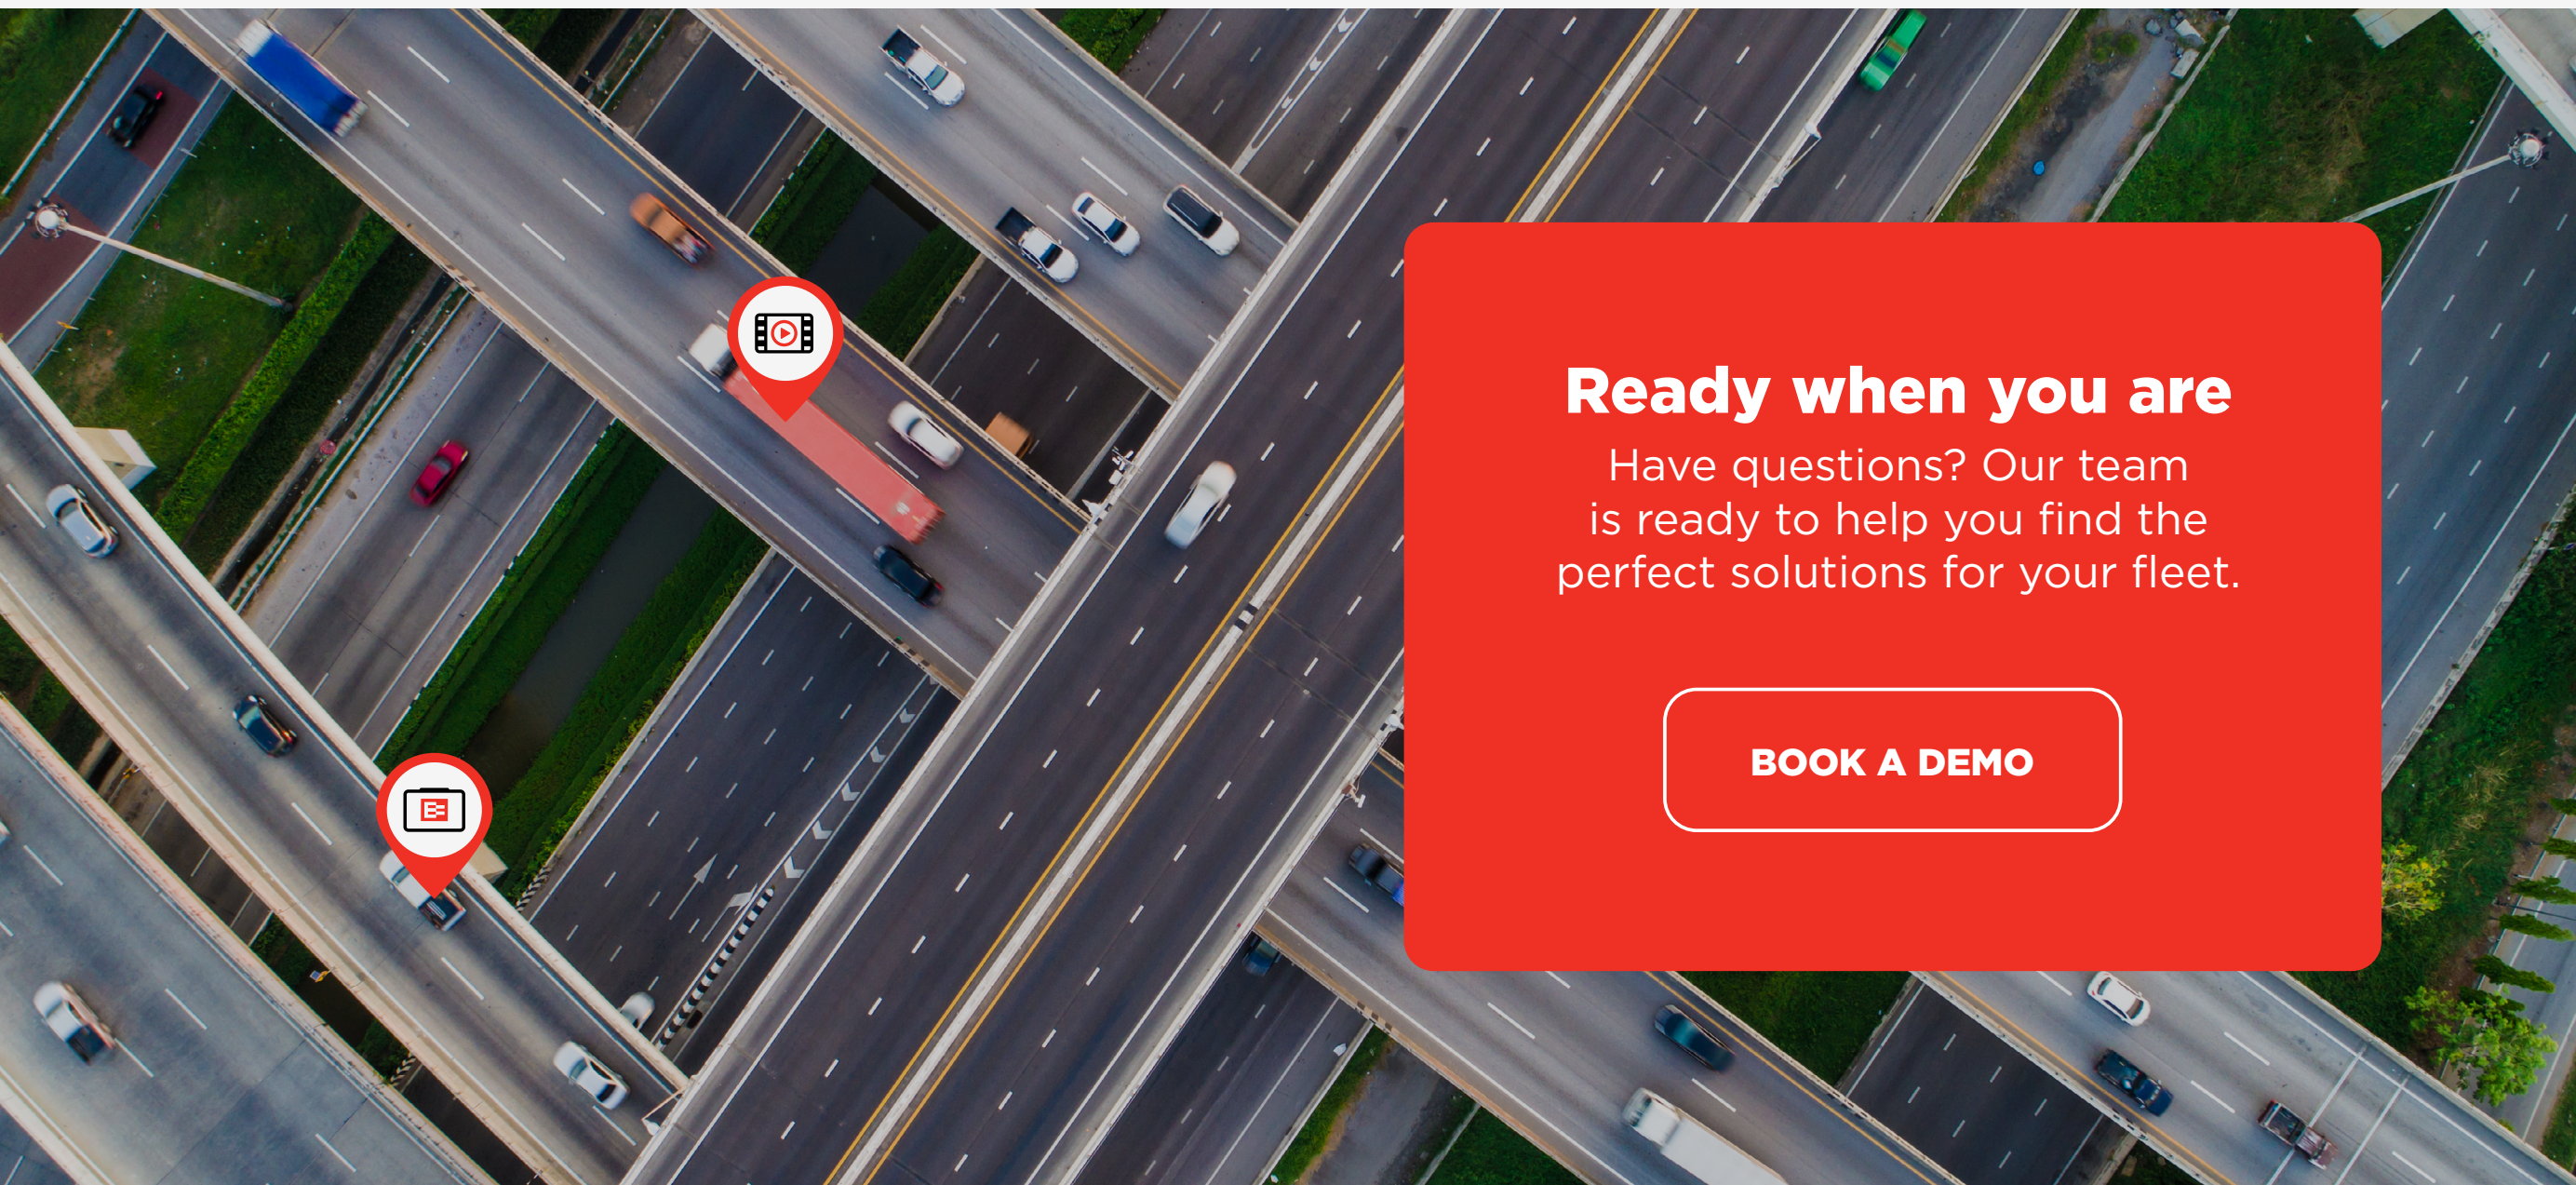

- **Food & Beverage**
Maintain product quality with temperature monitoring, optimized routing, and compliance tools for sensitive goods.
- **Groceries**
Improve delivery efficiency and shelf availability with route visibility, driver performance tracking, and automated reporting.
- **Transport**
Stay compliant with AI-powered video insights and performance data that drive safer, more efficient operations.

Fleet innovation that saves time, money, and fuel

From maintenance to safety, discover smarter ways to run your fleet.

- **Predictive maintenance**
Spot minor issues before they become major setbacks.
- **Compliance made easy**
Automate HOS, IFTA, DVIRs, and more — no paperwork required.
- **Lower emissions**
Dynamic routing to reduce idle time and fuel waste.
- **Live insights, smarter moves**
Dashboards, analytics, and alerts that keep you in control.
- **Safer roads**
Promote better driving habits and reduce risk with proactive coaching and incident detection.

Ready when you are

Have questions? Our team is ready to help you find the perfect solutions for your fleet.
